#### **Ascension Christian School Achieves AdvancED STEM Certification**

**GONZALES, LA (DECEMBER 2, 2015)**—AdvancED congratulates ASCENSION CHRISTIAN SCHOOL on receiving AdvancED STEM (Science, Technology, Engineering and Mathematics) Certification. This achievement is a mark of STEM distinction and excellence only offered to highly effective institutions that prioritize STEM education as a path to success. Ascension Christian School is the first, and currently, the only certified STEM school in Louisiana.

AdvancED STEM Certification is the first internationally recognized mark of quality for STEM schools and programs, signaling the growing emphasis placed on STEM education by educators, politicians and business leaders around the world. In earning this certification, Ascension Christian School has demonstrated its commitment to preparing its students for their educational and career opportunities of the future by ensuring its students will have the skills and knowledge they need to be successful in their postsecondary pursuits and as workforce contributors in the 21st-century economy.

In order to earn STEM Certification, Ascension Christian School had to demonstrate adherence to the AdvancED STEM Standard as reflected by the school's performance across 11 rigorous STEM Indicators. The certification process provides a rigorous evaluation and continuous improvement process, supported by research-based tools and resources. Achieving high scores across the indicators certify that students have been equipped and trained to be innovative, creative and systematic problem-solvers across disciplines.

"We are proud to be an AdvancED STEM Certified School. This certification exhibits Ascension Christian School's commitment to addressing workforce needs by preparing our students with the relevant skills and experiences to succeed while demonstrating to the private-sector that we are committed to driving higher levels of student achievement for their STEM pipeline," said Mark Pellegrin, Ascension Christian School Superintendent. "STEM certification will continue to uphold our school to high standards while providing a clear roadmap for us to continuously improve our STEM disciplines and program."

AdvancED's STEM Certification Reviewers examined Ascension Christian School's evidence of quality STEM education that the school provided to the review team beforehand, and conducted classroom observations focused on identifying student engagement and collaboration in the learning process using the Effective Learning Environment Observation Tool™ (eleot™). Reviewers also interviewed key stakeholders such as school administrators, STEM faculty and staff, parents, students and external partners in order to verify the school's commitment to connecting students' STEM experiences in the classroom to the local community and the world at large.

### **About AdvancED**

AdvancED is a non-profit, non-partisan organization serving the largest community of education professionals in the world. Founded on more than 100 years of work in continuous improvement, AdvancED combines the knowledge and expertise of a research institute, the skills of a management consulting firm and the passion of a grassroots movement for educational change to empower PreK-12 schools and school systems to ensure that all learners realize their full potential.

AdvancED operates three regional accrediting agencies and serves as a trusted partner to 32,000 schools and school systems—employing more than four million educators and enrolling more than 20 million students—across the United States and 70 countries.
